Sales Letter 1:

Unleash the Power (and Profit) of the New Air Scrubber!

Your customers' home is their safe haven. It's where they eat, sleep, and make memories.

They shouldn't have to worry about masking up or washing their hands until they crack when walking through their front door.

It's alarming but true: the average American home plays host to over 9,000 different species of germs. (Healthline.com) Our homes, which we often consider our sanctuaries, can harbor more pollutants than the air outside.

The US Environmental Protection Agency (EPA) even ranks indoor air pollution among the top five environmental dangers. Imagine the peace of mind that comes with knowing that the air you breathe at home is as clean and pure as it can be.

Now, consider passing that assurance to your customers. It's a common misconception that our homes are immune to these invisible threats.

But what if you could offer your customers a scientifically proven solution to combat this issue?

Introducing the New Air Scrubber by Enviropro-Solutions, a powerful weapon in the fight against indoor air pollution.

In just 30 minutes, the New Air Scrubber reduces over 90% of contaminants, making it 50 times more potent than typical HVAC filtration.

But it doesn't stop there. In addition to purifying the air, our Air Scrubber releases "scrubbing" particles that disinfect all surfaces within a home or office—door knobs, countertops, walls, furniture—creating a cleaner, safer environment.

Using advanced photocatalytic oxidation air purification technology, the New Air Scrubber neutralizes many types of airborne bacteria, chemical contaminants, and odors.

It also tackles surface bacteria, providing an all-round solution for indoor hygiene.

Once activated, the Air Scrubber fights 99.9% of harmful bacteria and viruses, including the COVID virus.

In our homes, where we seek shelter and comfort, this device is a game-changer. Imagine the relief your customers will feel knowing they can breathe easier in their own homes. The New Air Scrubber is more than a product—it's a promise of healthier, cleaner indoor environments.

Don't wait. Equip your customers with the New Air Scrubber, the gold standard in indoor air purification. Click the link below to contact us today and secure your Air Scrubbers at a fantastic wholesale price.

Give your customers the gift of cleaner, safer air.

Sales Letter 2:

Imagine transforming your business from \$100,000 to \$3 million in just one year.

Remarkable, right?

One HVAC business owner achieved exactly that using the strategies my team and I offer in just 3 months' time.

Imagine where you could be in three months with that kind of revenue...

This local HVAC business owner called me one day, he was struggling with fierce competition from local businesses, devastating off-seasons, and manufacturers refusing to lease him the essential equipment.

I could hear the aggravation through the lump in his throat.

Why is this important to you? Because my team and I helped him and can help you too.

You see, I'm a seasoned veteran in the service business industry. I have over 30 years of experience.

I understand the nitty-gritty of the industry. I know the bone-chilling early mornings when you're warming up the snowplows, cursing the cold weather.

I've experienced the sting of losing a customer to a competitor. And

I've felt the pressure of off-seasons nipping at my heels while scrambling to secure the necessary equipment for growth.

If these challenges sound familiar and you're ready for a change, I'd like to extend an invitation.

Let's spend 15 minutes discussing your current situation, your goals, and how we can accelerate your journey toward achieving them.

Click the link below to access a wealth of knowledge that will empower your decision-making process.

On the other side, you'll find our comprehensive, 100% free Lead Generation Guide, a token of our appreciation for the hard work service business owners like you contribute to our communities.

Also, don't miss the short video where I outline the most effective lead generation strategies for today's market.

Let's turn your challenges into opportunities for growth.

Sincerely,

Mike Wheeler

FIRST, LET ME GET TWO THINGS OUT OF THE WAY:

1. You're not alone
2. It certainly isn't too late!

Hear me out...

I was in your shoes. I was a single mom working in the medical field for over 25 years and had been investing in my 401k (not to mention budgeting and saying 'no' to myself and my family far more often than I said 'yes').

One of the hardest days of my life was when I was forced to face reality...

I was 50 years old when my sons looked over my finances and told me that despite my efforts and hard work, I wasn't on track to retire comfortably without a part-time job.

As it turned out, I only had enough saved in my retirement account to 'get by' for 7 years before running out of money. And when I say 'get by', I mean I wouldn't be traveling the world or living on the beach. I'd only have enough to pay my bills.

That's when I knew it was time to make a change... I took the leap of faith and finally said 'yes' to myself. Real estate investing was something I had been interested in for some time, but I'd always let fear and doubts creep in.

"I might be too old to learn something new..."

"What if I fail?"

Here's the thing, I'd run out of options, and I had come to a fork in the road:

Option A: Stay exactly where I was and bury my head back in the sand. I could just continue hoping for the best...

Option B: Take the leap, trust in my abilities, and TRY.

To make a long story short, I chose option B and never looked back.

Fast forward a few years, and my retirement account is fully funded - and i'm showing you exactly how I did it.
